
Considering a collaboration

- Before the next workshop, the CMB workshop scientific organizing committee (SOC) will collect ideas on how to structure the scientific collaboration (not the Project).
- **Goal:** develop several options on structure for the community to consider:
 - Roles
 - Timing / phasing
 - How leadership is determined
 - Membership policy
 - ... etc.
- One way to send ideas or input to the SOC is by email to:
cmbs4soc@gmail.com
