

Coordinating “r” and “non-r” forecasting

CMB-S4 Meeting, 20Sep16
(discussion moderated by Tom C.)

Coordinating “r” and “non-r”

- Questions to consider:

Coordinating “r” and “non-r”

- Questions to consider:
 - do we even really need to?

Coordinating “r” and “non-r”

- Questions to consider:
 - do we even really need to?
 - what to do about de-lensing?

Coordinating “r” and “non-r”

- Questions to consider:
 - do we even really need to?
 - what to do about de-lensing?
 - if we do, what are the first couple of steps?

Coordinating “r” and “non-r”

- Questions to consider:
 - do we even really need to?
 - what to do about de-lensing?
 - if we do, what are the first couple of steps?
 - suggestion: N_l and foregrounds

Coordinating “r” and “non-r”

- Questions to consider:
 - do we even really need to?
 - what to do about de-lensing?
 - if we do, what are the first couple of steps?
 - suggestion: N_l and foregrounds
 - if so, how far do we go?
